

## Student Assistant for a Biotech Startup

Are you studying biology / biotech (or similar) and want to become a part of an accelerating startup in synthetic biology? **Deadline 15<sup>th</sup> of August 2017**

Biosyntia is funded by Novo Seeds to develop high-performance biocatalysts for fermentation of fine chemicals. We use state-of-the-art synthetic biology to enable cost-competitive and sustainable manufacturing processes.

We are further expanding our team and are looking for an enthusiastic student assistant to assist with various tasks for 5-10 hours per week. The candidate will become a part of our young and dynamic team of talented people at Biosyntia's facilities in Copenhagen, Østerbro.

### We expect that you

- have experience with working in a molecular biology laboratory environment
- are structured and good at prioritizing your tasks
- are helpful and friendly
- speak English fluently

### Responsibilities

You will be responsible for keeping the laboratory and office space tidy, which means:

- washing the floor of the laboratory
- vacuuming the office floor
- be responsible for general laboratory maintenance
- more tasks may be discussed depending on the candidate qualifications and time availability

### We offer

An exciting and international environment of research and innovation. More advanced tasks as the candidate progress.

### Interested?

Please send your CV and motivational letter in a single PDF to Bo Salomonsen, [bo@biosyntia.com](mailto:bo@biosyntia.com). Subject title: "Student Assistant". Deadline the 15<sup>th</sup> of August. We are interested in starting the candidate as soon as possible.
